NEW THOMPSON

THE NEW THOMPSON is another new variety that every strawberry grower should try out. One of the most productive of strawberries that we have grown for a long time. Fine for sandy soil. Berries excellent in appearance and quality. Vines simply loaded with large, bright waxy red strawberries that are a joy to pick. Easy to hull. An excellent fruit for the freezer. We have grown many late varieties but these are the best by test. So by all means try the NEW THOMPSON this year. Plants are limited. Our certified plants are your protection. Plants tied with gray string.

CATSKILL

The extra large size of the berries is the feature of Catskill; really huge. And the flavor is extra fine, too; mild and sweet. Color is brilliant red with bright green calyx—very showy, excellent seller. Really making a very good name for itself. Plants vigorous and exceedingly productive. Grow in narrow rows for best results; does not require mating.

NEW HYBRID ★ CARMELCROSS ★

CARMELCROSS — (72 days). Both market and home gardeners are highly enthusiastic over this fine medium early hybrid, because of its large uniform ears and excellent quality. It produces large ears and is entirely resistant to wilt.

The sturdy plants grow about 5½ feet tall and the big well filled ears have 12 to 16 rows of deep, bright yellow kernels. They are all just alike, very attractive in appearance and delicious to eat, being sweet and tender with remarkably fine flavor. Our strain is the Improved Carmelcross having larger and longer ears than the original type and we recommend it highly.

NEW SUPER GIANT 9-EAR CORN

This is a new 100-day White Flint Field Corn that is rare and grows to a giant height. A better sight cannot be imagined than walking with your friends through a forest of corn stalks 15 to 20 feet high. Some of the ears were 10 feet from the ground. Had to use a ladder to get them. World's tallest Corn. You must grow this giant Corn to believe it. It is unusual to see three ears to a stalk on common corn. But four, five, six, seven, eight and nine ears to a single stalk is a miracle.

One of the greatest silo or ensilage corns in the World. Leaves broad, long and wide. Leafy clear to the ground. Five times more fodder than ordinary corn.

Also a splendid exhibition variety. Be the first to grow it. Plant one kernel in a hill. Order early.

NEW BURBANK TOMATO

THE BURBANK is one of LUTHER BURBANK'S marvelous new creations. For over fifteen years it has been by far our earliest and best Tomato. Others seem to come and go. Tomatoes top the list as No. 1 U. S. vegetable. Tomatoes help to maintain national health. Just think of it! Burbank seeds planted in open ground will bear fruit earlier than plants from a hotbed. Fruit ripens a week to ten days earlier than any other extra early Tomato known. Ripens up perfectly without crack, spot or blemish. Color bright red and smooth. A continuous bearer throughout the season. A firm, large Tomato of superior quality. Fruit has no open cavities. Slice solid as a beefsteak. Plants resist wilt and other Tomato diseases. Unlike other Tomatoes, the skin peels freely from the rich, firm flesh. If you want a real early Tomato, do not fail to plant this wonderful Burbank Tomato. WORLD'S EARLIEST. Packet about 500 seeds.

RED BUSH CHERRY

Red Bush Cherry is one of our best roadside sellers. We sell hundreds of quarts each year. Red Bush Cherry bears fruit in clusters of 6 to 8. Easy to pick. Fruiting two or three thousand on one vine. Larger than the biggest sweet cherry. Very delicious flavor when eaten as picked from the vine. Used for canning and preserving. Children will like them. Sweet as sugar. If once planted, Bush Cherry will come up each year. They bear very early and are everbearing. Easily grown. Was created from the tomato family. Grow same as tomatoes.
